Learn The 43 Sounds of American English Pronunciation ...

Pronunciation is not an intrinsic component of the dic-tionary. For some languages, such as Spanish, Swahili, and Finnish, the correspondence between orthography and pronunciation is so close that a dictionary need only spell a word correctly to indicate its pronunciation. Modern English, however, displays no such consistency in sound

In a more recent translation, the last phrase is translated as "they do not toil, " because English no longer places not after the verb in a sentence. The sounds of a language change over time, too. About 500 years ago, English began to undergo a major change in the way its vowels were pronounced.

Is English Changing? | Linguistic Society of America

While there are certainly many more varieties of English, American English and British English are the two varieties that are taught in most ESL/EFL programs. Generally, it is agreed that no one version is "correct," but there are certainly preferences in use. The three major differences between American and British English are:

Differences Between American and British English

The verb form, globalize, is pronounced the same in both British and American English. But British English maintains this same pronunciation in the noun form — globalization — while American English changes the sound of the letter " i. " The letter " T " in the middle of a word can be pronounced like a fast " D " in American English

Pronuncian: American English Pronunciation

Without any doubt, one of the main contributors to American English was the work of a teacher, Noah Webster, who wrote three important volumes which made up the book " A Grammatical Institute of the English Language ". One such volume was " American Speller " which was designed to create accuracy and uniformity of pronunciation in schools.
