Attendant Manual Standard
The Cabin Crew Safety Training Manual (Doc 10002) provides guidance related to cabin crew training requirements found in Annex 6 - Operation of Aircraft, Part I - International Commercial Air Transport - Aeroplanes. ICAO developed guidance for a competency-based approach to cabin crew safety training so that cabin crew members could be proficient to perform their tasks, and with the goal of establishing an international baseline for cabin crew competencies.

Cabin Crew Competency-based Training and Assessment
The minimum number of cabin crew and the evacuation procedures form part of the Operations Manual. Reducing the minimum cabin crew is a deviation from the required minimum number and requires close monitoring. Changes to evacuation procedures with a reduced number of cabin crew are required to be acceptable to the Competent Authority.

2.4 Minimum Cabin Crew For the A350-900, the minimum required cabin crew number established during the aircraft certification process is 8 (2 per exit pair), irrespective of the Maximum Operational Passenger Seating Capacity (MOPSC). The above minimum cabin crew numbers are those demonstrated by the type certificate holder.

TYPE-CERTIFICATE DATA SHEET - EASA
Many aircraft accidents are survivable and a significant contributory factor can be the effectiveness of the cabin safety procedures including the activities of the cabin crew. This course will introduce those factors which a regulator will need to include in an oversight regime and how they might be included in a practical cabin safety oversight programme.
