A child car seat harness should fit snugly across your child's body, with space for two fingers between the harness and the child. Some child car seats have harnesses to act as restraints. For a harness to work well, it needs to fit snugly across your child's body – you should be able to fit just two fingers between the harness and your child's body.

How To Fit A Car Seat-10 Essential Checks—Which?

A properly-fitted 5-point harness gives the best possible protection for your child. A 5-point harness has straps that go over both shoulders and both hips and then buckles at the crotch. The car seat label will tell you the weight and height range of the harness. Check regularly to make sure your child hasn't outgrown it. A seat belt is also a type of harness and is used on older children in booster seats.

Right Fit—The Ultimate Car Seat Guide

Start your child in a rear-facing car seat in the back seat. Rear-face until at least age 2 and until they reach the upper weight and height limits of the seat (even up to age 4). If your child outgrows their car seat before age 2, change to a seat with higher rear-facing weight and height limits. Keep rear-facing as long as possible.

4 Stages of Car Seat Use for Children—Child Safety Seat—

Child Car Seats Child Car Seat Fitting and Compatibility This webpage brings together information from manufacturers and retailers on whether a particular child car seat will fit in your vehicle and how you should install it. Below are a number of child car seat manufacturers.

Child Car Seat Fitting and Compatibility+Child Car Seats

Baby-These are rearward facing car seats that will usually go in the back of the car to get them started. Toddler-These are designed for kids who have outgrown the baby seats, but aren't quite big enough for a child car seat or booster seat. Child-These are for when your little one needs a 'boost' so they can safely use an adult seatbelt.

Car Seats Buyers Guide+Halfords UK

Find the perfect seat for your child and your car with our FIT FINDER® tool. Filter by the age group of your child and then by the make and model of your car. The results are based on vehicles we tested. Since we cannot test every available car model, we always recommend a test installation before buying your car seat.
