Making a vaccination chart would help you in the documentation of the shots and would give the vet an idea of what treatment will be more preferred in case your dog falls sick. The chart should contain the age of the dog, the time and date of when the shots were given and details regarding the vaccine.

Like people, pets need vaccines. And pet vaccinations, like those for humans, may sometimes require a booster to keep them effective. The best way to stay on schedule with vaccinations for your dog or cat is to follow the recommendations of a veterinarian you trust.. Chances are your vet's suggestions will break down into two categories: core pet vaccines and non-core vaccines.

[Pet Vaccines: Schedules for Cats and Dogs](#)

Vaccinating your puppy is one of the most important things you should do in your first few weeks as a dog owner. Regular vaccinations help puppies grow into dogs who remain free of infectious diseases, and also prevents them from passing nasty diseases on to other animals in the local area.
