In the riveting, powerful conclusion to the Love Story duet, Sam and Lucy discover that sometimes it's not about finding love, it's about saving it. Even when we were kids, the connection between us was overwhelming. I knew Sam and I were soulmates, destined to be together. Breaking that love would mean breaking us. And for a little while, that happened. I lost the man who had always been my other half. After too much heartache and too many years apart, we've finally found our way back to each other. But Sam's professional boxing career is getting in the way of our happy ending. I don't know how much longer I can watch him take another crushing punch, knowing each one knocks him closer to danger. He's killing himself. For me. For us. And for one tiny other... Then the blow comes. It's not the one I thought it would be--fist in glove--but the result is the same. We're on the verge of losing everything we fought for. Everything we sacrificed for. We thought we paid the price. We thought we had it all. But what if my love isn't enough to bring Sam back to me? Form-Meaning Connections in Second Language Acquisition is an interdisciplinary and timely edited book of essays and empirical studies, most of which are based on the papers presented at the Form and Meaning Conference held in Chicago in 2002. The goal of the conference and now of the book is to present linguistic and cognitive approaches to second language acquisition, attempting to integrate external and internal issues in interlanguage development, while outlining directions for future research. The editors address questions, such as: What is the nature and sequence of the form-meaning mapping process? How are these connections made? How are these connections used to construct grammars and lexicons? And, how can conditions and external factors be manipulated to improve the chances of making these form-meaning connections? Contributors to this volume include such second language acquisition scholars as Susan Gass, Nick Ellis, Kathleen Bardovi-Harlig, Catherine Doughty, and Diane Larsen-Freeman. They address these form-meaning issues from a variety of settings and from multiple perspectives. Researchers and graduate students in applied linguistics, cognitive psychology, linguistics, and language pedagogy will find this volume to be an

important resource.

Bestselling author David Dalton goes in search of the real Bob Dylan in an electrifying biography that puts all the others in the shade. As an artist Bob Dylan has been a major force for half a century. As a musical influence he is without equal. Yet as a man he has always acted like an outlaw on the run, constantly seeking to cover his tracks by confounding investigators with a dizzying array of aliases, impersonations, tall tales and downright lies. David Dalton presents Dylan's extraordinary life in such a way that his subject's techniques for hiding in full sight are gradually exposed for what they are, Despite the changing images, the spiritual body swerves, the manipulative nature and the occasionally baffling lurches between making sublime music and self-indulgent whimsy, the real Bob Dylan has never been more visible. Among the eyewitnesses cited are Marianne Faithful, Allen Ginsberg, Andy Warhol, Larry 'Ratso' Sloman, Nat Hentoff, Suze Rotolo and many more. Yet in the end it is Dalton's impressive ability to find revealing patterns in Dylan's multiple disguises that reveals more than we ever expected to learn about the real man behind the Dylan legend.
