The secrets behind the world's most beautiful skin! In Korea, healthy, glowing skin is the ideal form of beauty. It's considered achievable by all, men and women, young and old—and it begins with adopting a skin-first mentality. Now, this Korean beauty philosophy has taken the world by storm! As the founder of Soko Glam, a leading Korean beauty and lifestyle website, esthetician and beauty expert Charlotte Cho guides you through the world-renowned Korean ten-step skin-care routine—and far beyond—to help you achieve the clearest and most radiant skin of your life With Charlotte's step-by-step tutorials, skin-care tips, and advice on what to look for in products at all price levels, you'll learn how to pamper and care for your skin at home with Korean-approved techniques and pull off the "no makeup" makeup look we've seen and admired on women in the streets of Seoul. And you'll get access to beauty secrets from Charlotte's favorite beauty gurus from around the world, including supermodels, YouTube sensations, top makeup artists, magazine editors, actresses, and leading Korean skincare researchers. With the knowledge of an expert and voice of a trusted friend, Charlotte's personal tour through Korean beauty culture will help you find joy in the everyday beauty routines that will transform your skin.

This comprehensive first of its kind guidebook explores the unique challenges that thousands of families face every day raising their children in every city and state. Through extensive research and interviews, as well as years of experience working in the field, the authors cover gender variance from birth through college. What do you do when your toddler daughter's first sentence is that she's a boy? What will happen when your preschool son insists on wearing a dress to school? Is this ever just a phase? How can you explain this to your neighbors and family? How can parents advocate for their children in elementary schools? What are the current laws on the rights of transgender children? What do doctors specializing in gender variant children recommend? What do the therapists say? What advice do other families who have trans kids have? What about hormone blockers and surgery? What issues should your college-bound trans child be thinking about when selecting a school? How can I best raise my gender variant or transgender child with love and compassion, even when I barely understand the issues ahead of us? And what is gender, anyway? These questions and more are answered in this book offering a deeper understanding of gender variant and transgender children and teens.

"Read what you enjoy, not what bores you," Nick Hornby tells us. That simple, liberating, and indispensable directive animates each installment of the celebrated critic and author's monthly column in the Believer. In this delightful and never-musty tour of his reading life, Hornby tells us not just what to read, but how to read. Whether tackling a dismayingly bulky biography of Dickens while his children destroy something in the next room, or getting sucked into a serious assessment of Celine Dion during an intensely fought soccer match featuring his beloved Arsenal, or devouring an entire series of children's books while on vacation, Hornby's reviews are rich, witty, and occasionally madcap. These essays capture the joy and ire, the despair and exhilaration of the book-lover's life, and will appeal equally to both monocle-wearing salonnières and people, like him, who spend a lot of time thinking about Miley Cyrus's next role.

A thought-provoking book about the state of youth today with a strong criticism of the selfish, competitive and isolated lives that many parents lead, and powerful suggestions for a better alternative.

In this book, leading authors in the field discuss the habitats of tomorrow. These habitats will be connected through autonomous and assistive systems, turning habitats into health resorts. This book discusses how assistance technologies enable a smooth transition from comfortable health support to medical or nursing care. The contributions have been chosen and invited at the 9th AAL congress, Frankfurt.
