Gender divides power. Inequalities between men and women are one of the most persistent patterns in the distribution of power. For example, women's lack of influence marks political decision-making the world over. Gender relations are power relations. Often what it means to be a 'woman' is to be powerless (quiet, obedient, accommodating).

Gender and power: six links and one big opportunity
Gender and Power and Privilege. Issues of gender and privilege have been a common theme in society for many years. The women's liberation movement in the 1960's and 1970's brought into focus some of the privileges that men enjoyed based on gender and how their use of power affected the lives of women. If we look closely at the social status of women and men, we can see that men continue to have privilege over women in many aspects of life.

Gender and Power and Privilege
'Gender' is one of the most persistent causes, consequences and manifestations of power relations. Understanding gender can therefore significantly enhance our understanding of power and vice versa. Yet donors have largely neglected 'gender' in their efforts to understand power relations in partner countries.
