Script Fast Vol I

Windows Command
Line (cmd) & Batch
Script ... - Inside Learn
The Windows command
line is a commonly used
tool for IT support and
system administration.

Batch scripting is a tool
for automating the
command line. If you

Download File

PDF Learn

are learning one of these, it makes sense to learn both. Learn both here! In this book, you learn how to:- get information about your computer and its contents - customize the command ("cmd") window

Vol I: A course ...

Batch Scripts are stored in simple text files containing lines with commands that get executed in sequence, one after the other.

Scripting is a way by which one can alleviate this necessity by automating these

command sequences in order to make one's life at the shell easier and

Download File

PDF Learn

more productive. This tutorial discusses the basic functionalities of Batch Script along with relevant examples for easy understanding.

The batch command
ECHO is used for
echoing commands
on/off and printing
message to the console.

Example. @echo OFF
echo Hello. Output.
Hello. This command
ECHO displays Hello in

Download File

PDF Learn

the console as shown above. Besides printing message, echo is also used for deciding whether or not to display the command itself. Like in this example as well, in the first line we have turned OFF echo, which makes sure that commands themselves are not printed.

PDF Learn

Command Line

Batch File Commands
(A-Z) | Explanation and
Examples

Normally, the first line
in a batch file often
consists of the following
command. ECHO

Command

@echo off By
default, a batch file will
display its command as
it runs. The purpose of
this first command is to

Download File

PDF Learn

turn off this display. The command "echo off" turns off the display for the whole script, except for the "echo off" command itself.
