Son of a Granadan diplomat living in exile in Morocco, the young man who would later be known as Leo Africanus traveled and wrote about Africa, Arabia and Turkey in the late 16th century. Captured at sea by pirates and delivered to Pope Leo X, he became a celebrity in Rome. His writing remains our most vivid glimpse into his times—and he was probably Shakespeare's model for Othello.

The two names symbolized the two worlds of Quannah Parker. Quannah always said he was born “about 1850,” but various historians have placed the date as early as 1845 and as late as 1852. There is no way of telling for certain since the Plains Indians relied on oral history, instead of written records, to preserve their past.

"Man of Two Worlds" is the sort of film that no one would make today. It's very much a relic of the early 20th century and influenced by the real life story of Minik, a native of Greenland brought back to Europe as a cultural curiosity--and who ended up wasting away and dying away from his native land.

Biography of the man responsible for the laying of the transatlantic cable.

Before there was Superman or Batman, before Ray Bradbury or Harlan Ellison ever picked up a pen, before there were science-fiction fans and conventions, there was Julius Schwartz -- a man who would have an indelible effect on all this and more. One of the inventors of science-fiction fandom in the thirties and publisher of the first SF "fanzine" (one of its early subscribers was Superman's cocreator Jerry Siegel), Julius Schwartz became the world's first SF specialty literary agent while still in his teens. During the "Golden Age" of science fiction, he represented a distinguished roster of authors, including H. P. Lovecraft, Alfred Bester, Robert Bloch, and Ray Bradbury. But that was only the first chapter in Schwartz's amazing career, for he is also one of the most influential editors in comic-book history. Besides working on both the Superman and Batman character she created much of the mythology we now take for granted. Schwartz was also responsible for revitalizing nearly every important DC Comics character, highlighted by the mighty Justice League of America, in what has since become known as comics' beloved "Silver Age." Over more than forty years, Schwartz captained such blazing talents of the comics industry as Bob Kane, Bill Finger, Curt Swan, Neal Adams, Denny O'Neil, Alan Moore, and many others. Here, in "Julie's" own words, is a behind-the-scenes look at a life spent having fun and making sure readers did, too -- the incredible story of a true hero of American pop culture.
