It is Every Mother's Nightmare...Only Worse
Eight-year-old Sophie Donohue just wanted to be like every other little girl. Which is why her mother, Janine, reluctantly agreed to let her go on the weekend camping trip with her Brownie troop. But when Janine arrives to pick up Sophie after the trip, her daughter is not with the others. Somehow, along the forested route from West Virginia, Sophie has disappeared. But Sophie is no ordinary eight-year-old. She suffers from a rare disease, and Janine has recently enrolled her in an experimental treatment as a last effort to save her life—despite the vehement objections of her ex-husband, Joe. Without her medication, Sophie cannot survive long. All her mother's instincts tell Janine that Sophie is alive, but time is running out. Deep in the Virginia forest, another drama unfolds. Sophie finds refuge in a remote cabin inhabited by Zoe, a woman who wants nothing to do with the child. Zoe is struggling to save her own daughter from the

law, and Sophie's presence jeopardizes any chance of that happening. She is as determined to save her daughter as Janine is to save Sophie...and only one of them can succeed.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of

the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

A new play from an award-winning playwright, published as part of the innovative Abbey Theatre playscript series. On the day of her father's funeral, Eva - a young woman - is still haunted by the betrayal she witnessed from her childhood haven - the treehouse in the garden. On the same day another woman, Magda, relives the ghosts of another hiding place and a different betrayal - ghosts from which she still seeks forgiveness.

Interweaving lives and secrets *Treehouses* is a magical tale of refuge, treachery and of love lost and found.

Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion-journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal

losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

The Choreography of Antony Tudor: Focus on Four Ballets presents both an analytical overview of the ballets created for the stage by Antony Tudor and an in-depth critical analysis of four key works: Jardin aux Lilas (1936), Dark Elegies (1937), Pillar of Fire (1942), and The Leaves Are Fading (1975). Tudor was a British choreographer who spent a large part of his working life in the United States, and although he was not prolific in his output, his works include several masterpieces of twentieth-century ballet repertoire. Characteristic of his work is an exceptionally creative and sensitive relationship of choreography with music, a relationship different from that developed by his equally musical contemporary, George Balanchine, in that it privileges subtle layers of dramatic, often psychological, exposition as well as complex mythmical structures. Tudor's ballets invariably involve a psychological human dimension, even when there is no story as such, and it is these two strands - the musical and the dramatic - that the choreographer exploits with consummate skill in the best of his work.
